

ETD CONTRIBUTIONS IN SHODHGANGA: A STATUS REPORT OF UNIVERSITIES OF MAHARASHTRA (INDIA)

Dr. Shantashree Sengupta

Librarian & Head,

Department of Library & Information Science,

Chandmal Tarachand Bora College,

Shirur, Dist.PuneMaharashtra (INDIA)

ABSTRACT:

Theses and dissertations have always been one of the most important types of grey literature for the scholarly world. However, there has always been a debate on their accessibility issues. In majority of cases, the usage of these documents is limited only to the University Level. The submission of theses and dissertations in electronic format has increased the opportunity for the user community to have an access to the knowledge embedded in these works through various National & International E-Theses & Dissertations Repositories/ databases etc. In India, UGC Regulations 2009, made it mandatory for every doctoral researcher to submit his/ her thesis in electronic format to the University concerned which are then deposited in INFLIBNET's Shodhganga: a reservoir of Indian theses. The present study proposes to report the status of ETD contributions of Universities of Maharashtra.

KEYWORDS: *ETD, E-thesis Repositories, Shodhganga, INFLIBNET, Universities of Maharashtra, Open Access.*

1. INTRODUCTION:

Theses and dissertations are a unique form of document which contains hidden facts of qualitative research work sometimes containing facts completely unknown to the rest of the world. The print form of theses and dissertations limited their access only to the University/ department where it has been submitted for the award of the Degree. The UGC Notification (Minimum Standards & Procedure for Award of M.Phil. / Ph.D Degree, Regulation, 2009) dated 1st June 2009, revolutionized this system thereby making it mandatory for every researcher to submit a soft copy of their M.Phil/ Ph.D thesis to the University concerned which then submits it to the UGC for hosting the same in INFLIBNET, which will be accessible to all institutions/ universities.

2. SHODHGANGA:

The Shodhganga@INFLIBNET is set-up using open source digital repository software called DSpace which uses internationally recognized protocols and interoperability standards. Shodhganga provides a platform for research scholars of Indian Universities/ Institutions to deposit their Ph.D. theses and make it available to the entire scholarly

community in open access. The repository has the ability to capture, index, store, disseminate and preserve ETDs (Electronic Theses and Dissertations) submitted by the researchers. Till date (09/09/2015), 232 Universities across India have signed Memorandum of Understanding (MoU) with INFLIBNET for contributing their theses at Shodhganga. More than 226 Universities have started contributing. 43000+ theses have already been uploaded in the repository. At present the top five contributing Universities of India are:

- a) Jawaharlal Nehru University (JNU), New Delhi : 4450+
- b) Gujarat University, Gujarat : 2924+
- c) Anna University, Tamil Nadu : 2836+
- d) Mahatma Gandhi University, Kerala : 2080+
- e) Bundelkhand University, Jhansi (Uttar Pradesh) : 1690+

Shodhganga received the eINDIA Jury Choice Award for Best ICT enabled Higher Education Institute of the year 2011.

Initially, Turnitin Anti-plagiarism software was used by the repository but 1st August 2015 onwards, INFLIBNET Centre has selected ‘Urkund’ Anti-Plagiarism Software (www.arkund.com) to be provided to the Universities who have signed MoU and are eligible for funding from UGC. Such institutions/ Universities will be getting the software free of cost from INFLIBNET Centre.

3. REVIEW OF LITERATURE:

Das & Saikia (2014) found out that out of the 16 Universities of Assam, only 03 have joined Shodhganga and the number of ETDs submitted by the 03 Universities is very poor. The paper concluded making a point that in spite of the status of the university (State/Central/Deemed), every university must deposit their ETD in Shodhganga. Similar kind of research was conducted by **Esh (2015)** regarding the ETD contributions made by the 09 Universities of West Bengal. There are 22 Universities in West Bengal, out of which only 05 Universities have signed MoU with INFLIBNET. Rest 04 Universities are contributing their ETDs without signing MoU with Shodhganga. The researcher found that only 228 ETDs are contributed by the Universities of West Bengal.

Both the researches prove that the status report of Universities contributing ETDs in Shodhganga is not satisfactory.

4. AIMS & OBJECTIVES:

1. To find out the state wise number of universities contributing ETDs in Shodhganga.
2. To prepare a list of various types of Universities in Maharashtra and to find out their status of MoU with Shodhganga.
3. To find out the University in Maharashtra having maximum number of ETD contributions in the repository.
4. To enlist the subject wise contribution of ETDs of Universities in Maharashtra.

5. FINDINGS & INTERPRETATIONS:

1) State wise number of universities contributing ETDs in Shodhganga

Sr.No.	State	Universities Contributing in Shodhganga
1	Andhra Pradesh	13
2	Assam	06
3	Bihar	01
4	Chattisgarh	03
5	New Delhi	10
6	Goa	01
7	Gujarat	17
8	Haryana	07
9	Himachal Pradesh	08
10	Jammu & Kashmir	03
11	Jharkhand	01
12	Karnataka	21
13	Kerala	07
14	Madhya Pradesh	08
15	Maharashtra	25
16	Manipur	01
17	Meghalaya	01
18	Mizoram	01
19	Nagaland	01
20	Odisha	04
21	Punjab	08
22	Pondicherry	01
23	Rajasthan	19
24	Sikkim	01
25	Tamil Nadu	34
26	Tripura	01
27	Uttar Pradesh	19

28	Uttarakhand	04
29	West Bengal	06
	TOTAL	232

Table 1: State-wise List of Universities who has signed MoU with INFLIBNET Centre, Ahmedabad for Shodhganga.

As mentioned in Table 1, Tamil Nadu ranks first with highest number of universities i.e. 34 Universities contributing their theses in Shodhganga. Maharashtra ranks second with 25 universities contributing their doctoral research work in the repository, Karnataka ranks third with contribution from 21 universities; Rajasthan & Uttar Pradesh shares the third position with 19 Universities contributing their theses to the repository.

2) Types of Universities in Maharashtra and their MoU status with Shodhganga

In order to prepare a full-fledged list of types of Universities in Maharashtra, the researcher accessed the ‘Know Your College (KYC)’ Portal (<http://www.knowyourcollege.gov.in/>) of Ministry of Human Resource Development, Government of India, which provides complete information about courses, intake capacity, laboratory facilities, library, hostel facilities in colleges/institutes/universities all over India.

As per the information available in KYC Portal, Maharashtra has-

- State Public Universities : 19
- State Open University : 01
- Central University : 01

- Deemed University (Government) : 07
- Deemed University (Government Aided) : 03
- Deemed University (Private) : 11
- Institute of National Importance : 03

Table 2: List of various Universities in Maharashtra and their MoU Status with Shodhganga

(Source: <http://shodhganga.inflibnet.ac.in/>)

The above table shows that out of the 45 different types of Universities, only 50% of the Universities have signed MoU with Shodhganga@INFLIBNET. Heritage University like University of Mumbai which was established in 1857 signed MoU at a very recent period. Several Universities which specialize in a specific subject area have not yet joined Shodhganga.

3) To find out which University in Maharashtra has the maximum number of

ETD contributions in Shodhganga

Sr.No.	University Name	No. of ETD Contributions	University Co-ordinator
1.	Shivaji University, Kolhapur	412	Yes
2.	Sant Gadge Baba Amravati University	312	Yes
3.	Savitribai Phule Pune University, Pune	290	Yes
4.	Tilak Maharashtra Vidyapeeth, Pune	270	Yes
5.	Homi Bhabha National Institute, Mumbai	245	-----
6.	Tata Institute of Social Sciences, Mumbai	201	Yes
7.	SNDT Women's University, Mumbai	133	Yes
8.	North Maharashtra University, Jalgaon	76	Yes
9.	Dr.Babasaheb Ambedkar Marathwada University, Aurangabad	59	Yes
10.	Symbiosis International University, Pune	55	Yes
11.	Institute of Chemical Technology, Mumbai	37	-----
12.	Narsee Monjee Institute of Management Studies, Mumbai	36	Yes
13.	Deccan College Post Graduate and Research Institute, Pune	23	Yes
14.	Mahatma Gandhi Antarrashtriya Vishwavidyalaya, Wardha	22	Yes
15.	D.Y.Patil University	19	-----
16.	Dr.Babasaheb Ambedkar Technological University, Lonere	06	-----

18.	Swami Ramanand Teerth Marathwada University, Nanded	01	Yes
19.	University of Mumbai	01	-----
	TOTAL	2199	

Table 3: ETD contributions by Universities in Maharashtra in Shodhganga

Table 2 shows that out of the 45 Universities, 25 universities have signed MoU with Shodhganga for contributing their ETDs in the repository. However, Table 3 shows that only 19 of the 25 universities have contributed their ETDs in Shodhganga.

Nineteen (19) universities from Maharashtra have contributed 2199 ETDs till date in the repository. Shivaji University, Kolhapur ranks first with 412 ETDs, followed by Sant Gadge Baba Amravati University (312) and Savitribai Phule Pune University (290).

4) Subject wise contribution of ETDs by Universities in Maharashtra:

	Total	2199

Table 4.1: Subject wise Distribution of ETDs

Table 4.1 provides the subject wise distribution of ETDs. The researcher found that ETDs of 70 different subjects are available in the repository. From the contribution of various departments of Universities in Maharashtra, it was found that Physics ranks highest with 188 ETDs, followed by Chemistry (186) and Business Administration & Management (159). From the data available, it can be interpreted that not all research work submitted in the University is deposited in Shodhganga. More than 50% of the subjects have very poor availability of ETDs in the repository.

Taking into consideration the ETD contributions of the top 05 Universities of India in Shodhganga, it can be seen that the total contribution of 19 Universities of Maharashtra is far less than the individual contributions of JNU (New Delhi), Gujarat University & Anna University.

According to the researcher, present situation of ETD contributions by Maharashtra may be due to the following factors:

- Lack of awareness of benefits of Open Access & ETDs
- Lack of skilled personnel
- Budgetary constraints
- Fear of plagiarism

6. SUGGESTIONS:

- 1) There should be a University Co-ordinator appointed by each University, who will be in-charge of forwarding the submission of ETDs to INFLIBNET. At present, out of the 19 contributing Universities, 05 Universities have not appointed any University Co-ordinator.
- 2) Special Awareness Programmes/ Workshops should be arranged by the university for the faculty members, explaining them the benefits of open access, copyright issues, and techniques to tackle plagiarism.
- 3) Although UGC Regulations 2009, makes it mandatory for every researcher to submit his/her research work in electronic format, but stringent rules should be made further by UGC & INFLIBNET in order to facilitate regular submission of the ETDs by the Universities in the repository.
- 4) Universities should collaborate with INFLIBNET in organizing awareness workshops related to ETDs, people should be made aware regarding their personal and institutional benefits.

- 5) Along with the current theses and dissertations, Universities should take digitization projects regarding the old theses and dissertations, so that even they can be deposited in Shodhganga.
- 6) Lack of staff and budgetary constraints may be some of the reasons for the unsatisfactory submission of ETDs by the Universities. Special provision of staff and budget should be made by the Universities/ Institutions and the State Government at large in order to facilitate proper functioning of the repository unit.

7. CONCLUSION:

Shodhganga@INFLIBNET is a boon for the research community since through open access it brings into light the hidden knowledge contained in the theses and dissertations. It is the only E-thesis repository in India providing open access to ETDs in various disciplines from across the nation. Shodhganga facilitates quick retrieval of information and helps in avoiding duplication of research work. It also helps the researcher to understand various research jargons, how to formulate research work, steps in formulating research in a particular area etc. ETDs become a unique source at times by providing valuable information. Awareness programmes must be arranged and mandatory rules should be made by the Universities in order to ensure regular deposition of ETDs in Shodhganga. More and more Universities must take advantage of this repository in order to showcase the quality and quantity of research in their jurisdiction.
